DESIGN BUILD PROCESS

11400 South; State Street to Bangerter Highway

- Construction of a new interchange on I-15 at 11400 South with an auxiliary lane on I-15 northbound and I-15 southbound between 11400 South and 10600 South.
- Widening of 11400 South to five lanes (four traffic lanes with a center median) with shoulders, curb and gutter, and sidewalks.
- Bike lanes throughout the corridor.

- Construction of traffic and pedestrian structures across the Jordan River and improvements to the Jordan River Parkway Trail
- Widening and improvements at many intersections with dedicated right and/or left-turn lanes and upgraded traffic signals
- Raised medians at several locations along the corridor to control access, and improve safety and traffic flow

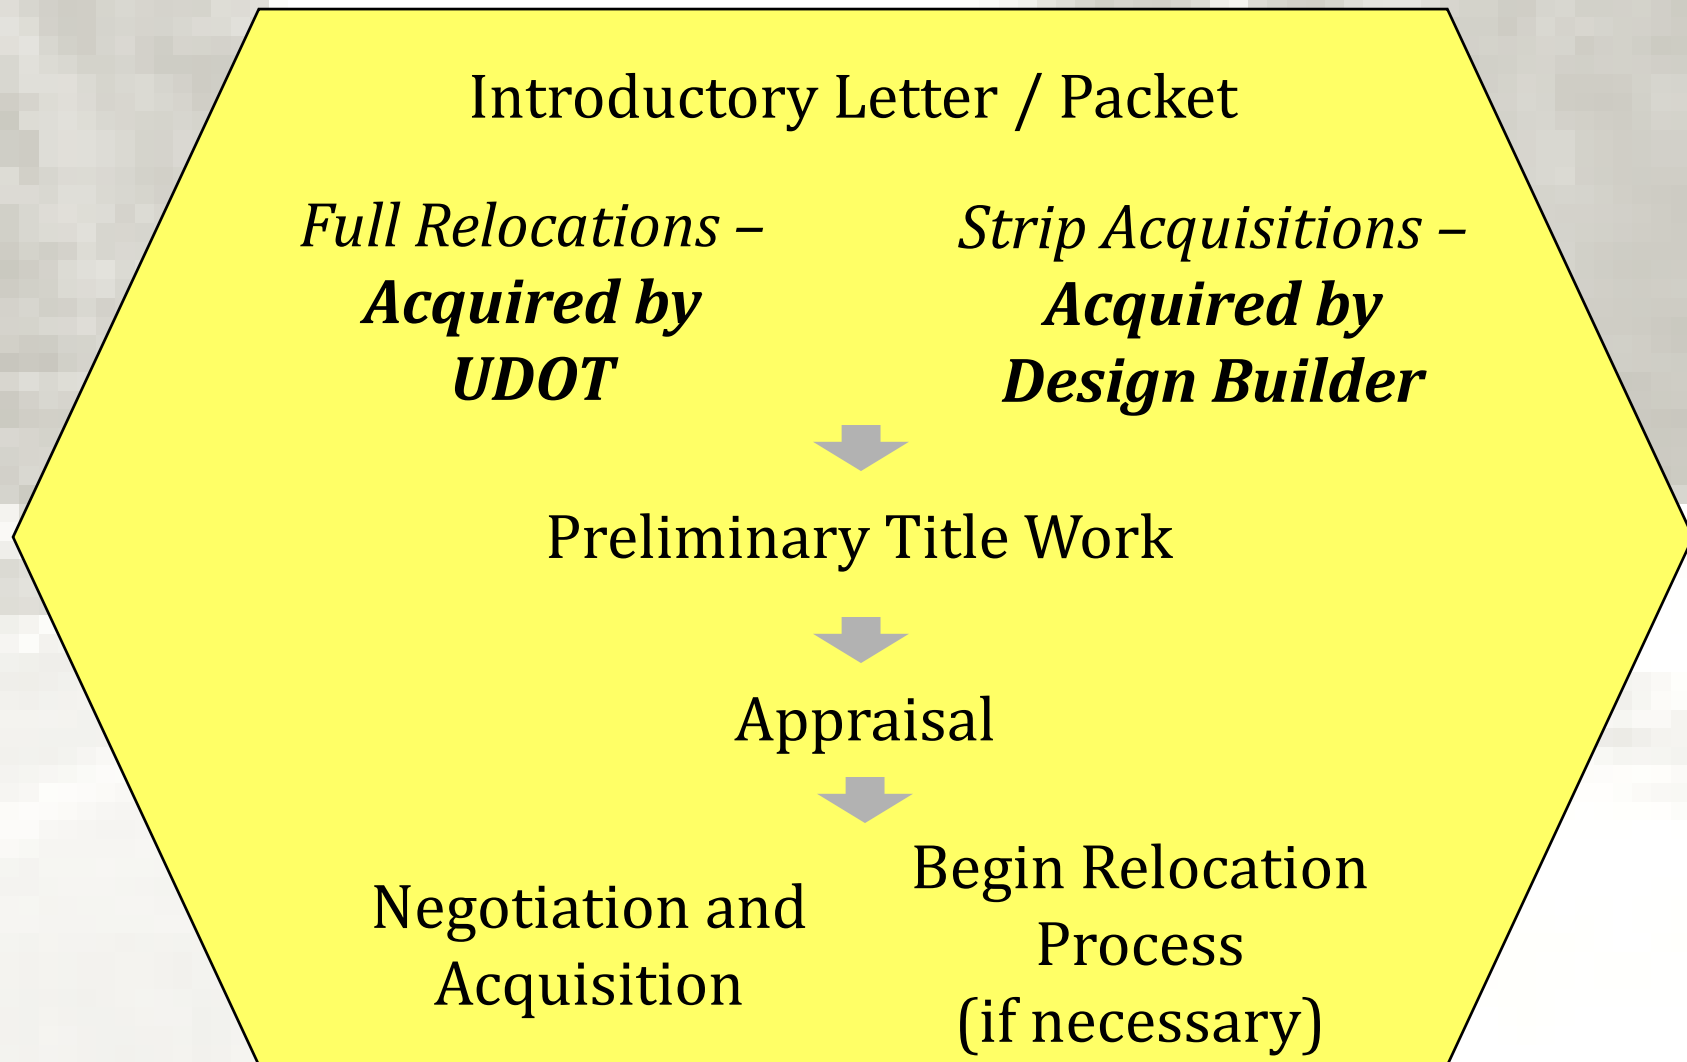

- Railroad tracks will be lowered.
- 11400 South will be raised to go over the railroad.
- Tracks will be built to accommodate UP freight lines and FrontRunner tracks.
- Closures will be necessary.
 - ✓ Anticipated 6 months but will know more once the contractor is chosen.

11400 South; State Street to Bangor Highway
